Journeyman Enhancement

Volume 20 • January - June 2008

Training News

NEWS TO USE

A New Year is Here and the New Training News is in the Mail

There are listings for classes that are always popular, new classes and workshops as we work to provide you with the training you need to improve your skills.

Concrete Form Manufacturer Workshops

We are working with three manufacturers to provide hands-on training for Concrete Forming Systems. These workshops will be available at a number of centers, and with three different manufacturers offering workshops you can find training that is right for you.

Building Green Workshop

We will be hosting a workshop on Building Green. You will be able gather information about the buildings designed to be environmentally friendly.

News from Tri-Cities

The Training Trust has recently acquired a property in the Tri-Cities that will house our Carpentry and Millwright training. We are in the process of renovating to fit our specific needs. Some classes have already taken place in our new house with the full complement of training to phase in over the next few months as we leave the CBC campus. Everyone is invited to stop by and see our new center located at 4208 West Clearwater Avenue in Kennewick, Washington. While you're there ask about the training and take that information back to your job site.

New Classes from the L.A.D.S. Program

The trainers in the L.A.D.S. program have expanded their class schedule with some new classes and still offer a wide range of training designed to improve our skills.

It is Frustrating When Classes Need to be Canceled

Your training staff works very hard to provide these classes, please make sure you work just as hard to make the classes successful. Here are some tips to success:

- Attend the classes that you signed up for. It is hard to tell what the future holds and many of the class offerings need to be scheduled days, weeks, and sometimes months ahead.
- Mark your calendar. Put a note on the refrigerator; find some way to remind yourself that a class is coming up.
- If you can't make it, please call.

**Renton Technical College Has Invited Us To a
Green Building Workshop
February 19th from 5 - 6:30 pm
King County Carpenters Training Center**

Call to Register

The buildings in which we live, work, and play protect us from Nature's extremes, yet they also affect our health and environment in countless ways.

Research and experience increasingly demonstrate that when buildings are designed and operated with their lifecycle impacts in mind, they can provide great environmental, economic, and social benefits. Elements of green building include:

- ❖ *Energy Efficiency and Renewable Energy*
- ❖ *Water Stewardship*
- ❖ *Environmentally Preferable Building Materials and Specifications*
- ❖ *Waste Reduction*
- ❖ *Toxics*
- ❖ *Indoor Environment*
- ❖ *Smart Growth and Sustainable Development*

New to Green Building?

Please join green building experts for a two and one half hour session introducing the benefits of green building, how green building will benefit you, and what local resources are out there for your trade.

TRAINING CLASSES

Acoustic T-Bar Grid

(8 Hrs)

***ALL HAND TOOLS, HARDHAT, BOOTS, AND SAFETY GLASSES.**

This class consists of laying out the project from a plan, installing hanger wires, wall angle main runners (tees), and cross tees and/or rigid X furring channels.

L.A.D.S. TRAINING CENTER

Kent

3/8 S 8:00am - 4:30pm

6/21 S 8:00am - 4:30pm

Aerial Lift/Man Lift

(8 Hrs)

This course covers safe operation and inspection procedures for both self propelled elevating work platforms (scissors lifts) and boom supported elevating work platform. OSHA and ANSI standards will also be covered. PPE and other safety equipment will be reviewed. Hands on operating skills will be evaluated. Qualification cards will be issued upon completion.

SOUTH PUGET SOUND CARPENTERS TRAINING CENTER

Bates College - South Campus/Tacoma. Bldg B512

2/20 W 7:30am - 4:00pm

3/31 M 7:30am - 4:00pm

6/28 S 7:30am - 4:00pm

Blue Print Reading I

(12 Hrs)

Lines, Symbols, abbreviations, and schedules are studied on residential blueprints. Three view drawings, details and basic math calculations will be covered.

EASTERN WASHINGTON/NORTHERN IDAHO CARPENTERS TRAINING CENTER

Spokane

2/11, 12 & 13 M - W 5:00pm - 9:00pm

Blue Print Reading II

(20 Hrs)

Plot plans, foundations plans, architectural and structural plans, are studied in this course. Elevation drawings, section drawings, and schedules of all kinds are presented.

EASTERN WASHINGTON/NORTHERN IDAHO CARPENTERS TRAINING CENTER

Spokane

3/10 - 3/14 M - F 5:00pm - 9:00pm

Blue Print Reading — Basic

(24 Hrs)

***NOTE TO APPRENTICES: HOMEWORK MUST BE COMPLETED PRIOR TO FIRST DAY OF CLASS.**

This course is designed to introduce and/or reinforce concepts commonly found in prints. These include symbols, abbreviations, and drawings conversions. Sketching principles and practices in three view drawings with pictorial form are included.

KING COUNTY CARPENTERS TRAINING CENTER

Renton Technical College, Bldg L

1/8, 10, 15, 17 T, Th 5:00pm - 9:00pm
& 1/12 & S 7:00am - 3:30pm

5/13, 15,
20, 22 T, Th 5:00pm - 9:00pm
& 5/17 & S 7:00am - 3:30pm

NORTH PUGET SOUND CARPENTERS TRAINING CENTER

Mount Vernon

1/15, 17, 22,
22, 29 & 31 T, Th 5:00pm - 9:00pm

Blue Print Reading — Advanced

(28 Hrs)

This course is designed to provide more hands-on experience for the journeyman who has had limited exposure to actual plans and specifications. Plans for a 7-story commercial/office building are reviewed in-depth. Accurately reading and interpreting information will help the print reader develop more confidence and experience directly related to the job site.

SOUTH PUGET SOUND CARPENTERS TRAINING CENTER

Bates College - South Campus/Tacoma. Bldg B512

2/5, 12, 19, 26,
3/4, 11 & 18 T 5:00pm - 9:00pm

Blue Print Reading/Material Takeoffs — Advanced

(20 Hrs)

***REQUIRED TOOLS: CALCULATOR**

***NOT REQUIRED: ARCHITECTURAL SCALE MASTER® TAKE OFF TOOL OR SIMILAR MEASURING WHEEL.**

This class covers an in-depth review of architectural, structural drawings, specification manuals, how to perform material takeoff, and prepare material takeoff sheets for interior systems.

L.A.D.S. TRAINING CENTER

Kent

3/29, 4/5 S 8:00am - 4:30pm
& 4/2 & W 4:30pm - 8:30pm

Join green building experts at the RTC seminar. Learn the benefits and local resources available for GOING GREEN.

To REGISTER CALL 1-866-295-8764

Boom Truck

(16 Hrs)

***TOOLS REQUIRED:** TAPE MEASURE, HARD HATS, SAFETY GLASSES, GLOVES, AND NORMAL WORK ATTIRE.

This course covers current regulations, safe operations, inspections, and “hands-on” evaluation on a Boom Truck.

NORTH PUGET SOUND CARPENTERS TRAINING CENTER

Mount Vernon

2/5, 7 T, Th 5:00pm - 9:00pm

“Reasonable men adapt to the world. Unreasonable men adapt the world to themselves. That’s why all progress depends on unreasonable men.”

— George Bernard Shaw

Joe Hill:

If the workers took a notion they could stop all speeding trains;

Every ship upon the ocean they can tie with mighty chains.

Every wheel in the creation, every mine and every mill;

Fleets and armies of the nation, will at their command stand still.

Scaffold Erector — Accelerated

(32 Hrs)

***4-YEAR CERTIFICATION CARD UPON COMPLETION.**

This course is for carpenters that have had recent experience building welded frame, mobile tower, tube & coupler, and systems scaffolds.

Trade Show Training

TRADE SHOW TRAINING

The Trade Show Training program has been developed to provide workers with the skill resources they need to succeed in the Trade Show Industry. Training classes for specific work disciplines allow for the skill development of the workers throughout their career. The classes are also designed to supply skilled, reliable labor to the Trade Show industry.

All Trade Show Trainees begin at 1st period and advance toward Trade Show Journeyman Level. In order to advance, Tradeshow Trainees must accumulate 500 hours of work and complete a minimum of 4 hrs training (one completed class) for each level of advancement. Union members are encouraged to take as many training classes as soon as possible.

REQUIRED CLASS	HRS
Orientation	4
I & D	4
Floor Layout	4
Material Handling	4
Carpet	4
Forklift Industrial Certification	8
Systems	4
High Wall	4

The above classes total 36 credit hours; you must complete these classes to advance to Trade Show Journeyman level. An additional 14 credit hours of supplemental classes from the list below, for a total of 50 credit hours, are required to advance to Qualified Trade Show Journeyman level.

SUPPLEMENTAL CLASS	HRS
Aerial Lifts	16
OSHA 30	30
Rigging	40
Scaffold Erecting	40
Trade Show Foreman	8
First Aid & CPR	8

Trade Show Training

CARPET - BASIC (TRADESHOW) (4 Hrs)

Trade show carpet installation and removal, safety regulations, necessary tools and equipment, terminology, plans, cutting and taping will be covered in the classroom and lab demonstrations.

SPECIALTIES TRAINING CENTER
Kent

Class upon request

CARPET - ADVANCED (8 Hrs)

***STUDENTS WHO HAVE NO CARPET EXPERIENCE ARE REQUIRED TO TAKE BASIC CARPET.**

This course covers advanced cutting, installation, crew leadership techniques and is an extension of basic temporary carpet class.

SPECIALTIES TRAINING CENTER
Kent

Class upon request

FLOOR LAYOUT (4 Hrs)

Trade show floor plan symbol interpretation, exhibit hall layout and the different types of booths will be studied in the classroom and lab demonstrations.

SPECIALTIES TRAINING CENTER
Kent

Class upon request

FOREMAN (TRADESHOW) (8 Hrs)

This course covers duties of trade show foreman as required by industry.

SPECIALTIES TRAINING CENTER
Kent
